## **GFATV UNVEILS THEIR NEW RECREATION SITE MAINTENANCE TRAILER**

This spring the Grand Forks ATV Club received their new maintenance equipment from BC Parks and Recreation Sites. The executive members worked hard to coordinate the acquisition consisting of a variety of maintenance tools, safety gear, supplies, and a new trailer to help keep all the items together and organized. The club is working in partnership with BC Parks and Recreation Sites to help maintain six recreation sites in the Granby area and having all the equipment ready to go and in one location will surely make maintenance a lot easier. Members of the Grand Forks ATV Club modified the interior to safely secure all the items in an organized fashion. The trailer has already proven successful with many site visits and excellent results, keeping the sites clean and welcoming. GFATV thanks all those were involved.
